Projects

Campus Recruitment And Placement System (Mobile App)

  • Campus recruitment is the process of recruiting young talent directly out of colleges/universities. In this case, companies use campus drive as a way to fill their companies with young talented employees.
  • Also, it is considered one of the best ways to hire fresh talent right off the college.
  • Used Java and C++.

Bank Management System

  • The Banking Finance Management System is a comprehensive web-based application designed to facilitate the efficient management of banking and financial operations for a financial institution.
  • It manages all the information about Accounts, Customers, Statements, and Accounts.
  • Used Java, HTML, CSS and Javascript.

Hobbies

  • Having good interest in Culinary.
  • Exploring new ideas!
